Reviewer's Comment / Report

This manuscript addresses an important and timely research question with great clarity and thoroughness. The writing is clear and well-structured, ensuring that the reader can easily follow the progression of the argument. The introduction effectively sets up the research question and presents a compelling rationale for the study. The methodology is carefully designed, and the study follows a systematic approach to data collection and analysis.

The results are presented in a well-organized manner, and the analysis is robust. The discussion thoughtfully explores the implications of the findings, drawing connections to existing literature and highlighting potential avenues for future research.

The conclusions are well-supported by the data, and the paper makes an important contribution to the field. The study is relevant and timely, and its findings will undoubtedly have an impact on future research. This paper is well-prepared for publication
