REVIEWER'S REPORT

- **Clarity & Organization:** The paper is well-organized, and the arguments are logically structured.
 - **Literature Review:** The paper provides a thorough review of relevant literature and integrates it well into the discussion.
-

3. Areas for Improvement:

- **Introduction & Motivation:** The introduction could benefit from a clearer statement of the research gap and motivation.
 - **Methodology:** Some methodological aspects require further clarification, such as [mention specific details that need improvement].
 - **Results Interpretation:** While the results are well presented, deeper discussion on their implications would strengthen the study.
 - **Language & Formatting:** Minor grammatical issues and formatting inconsistencies should be addressed to improve readability.
 - **References:** Ensure that all citations follow the correct format and include recent studies to enhance the discussion.
-

4. Specific Comments:

1. **Abstract:** The abstract should succinctly summarize the key findings and contributions.
 2. **Figures & Tables:** Some figures/tables need clearer captions and better formatting.
 3. **Conclusion:** Consider adding more discussion on future research directions.
 4. **Consistency:** Ensure uniformity in terminology and abbreviations throughout the paper.
-

5. Recommendation:

Overall, this paper contributes valuable insights to the field. With minor revisions to enhance clarity and depth of discussion, it will be a strong addition to the academic discourse.
