**Reviewer's Comment for Publication.**

*(To be published with the manuscript in the journal)*

*The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.*

A hemorrhagic adrenal cyst is a rare and potentially fatal condition that occurs when an adrenal cyst bleeds. Adrenal cysts are usually small and asymptomatic.

### *Detailed Reviewer's Report*

- 1. Bilateral benign can refer to conditions that affect both sides of the body, such as benign multinodular goiter, benign paroxysmal positional vertigo, or benign breast disease.**
- 2. Adrenal cysts are fluid filled sacs that form within the adrenal glands, which are located on top of the kidneys.**

**REVIEWER'S REPORT**

- 3. Beckwith-wiedemann syndrome is a rare genetic disorder that causes overgrowth. It is present at birth and affects a child's body size, organs and risk of developing certain cancers.**
- 4. BWS is usually recognized at birth but the severity varies widely among children. Some children have only one or two features of the condition.**
- 5. This research findings are value for medicinal level. Informations are given good and informative.**
- 6. Pictures are good and understanding about disorders.**
- 7. References should be in alphabetical order.**
- 8. Summary parts are missed to include.**
- 9. Results of this findings should be given with tables and graphs. Then only looks good.**
- 10. Can be given flow charts of this research to understand easily. Key words also not given. It must be added.**
- 11. Discussion part is very less information. References also less. It can be added more if possible.**
- 12. This research is value to publish in your jour after minor corrections.**
