Reviewer's Comment for Publication.

(To be published with the manuscript in the journal)

The reviewer is requested to provide a brief comment (3-4 lines) highlighting the significance, strengths, or key insights of the manuscript. This comment will be Displayed in the journal publication alongside with the reviewers name.

An ischemic stroke occurs when a blood clot blocks an artery in the brain, cutting off blood flow to that area. This deprivation of oxygen and nutrients to the brain tissues can lead to permanent damage or death.

Detailed Reviewer's Report

- 1. Moyamoya is a Japanese term that translate to puff of smoke. It refers to a rare, progressive cerebrovascular disease that causes the blood vessels at the base of the brain to narrow or become blocked.**
- 2. The name moyamoya comes from the appearance of the affected blood vessels on medical imaging, such as an angiogram. These vessels can appear as thin, wispy lines that resemble puffs of smoke.**

REVIEWER'S REPORT

- 3. Stenosis refers to the narrowing of a tubular structure in the body, such as a blood vessel, airway or spinal canal.**
- 4. MRI is a medical imaging technique that uses a strong magnetic field and radio waves to create detailed images of the body's internal structures, helping doctors diagnose and monitor various conditions.**
- 5. Angiography is a medical imaging procedure that uses X rays to visualize blood vessels in the body. It is used to diagnose and monitor conditions that affect blood vessels.**
- 6. Young adult revealing can refer to the period of dramatic change and development in young adulthood or to the portrayal of character development and reveals in young adult fiction.**
- 7. It can also refer to the period when young people are expected to become financially independent and take on adult responsibilities.**
- 8. Informations are given very less. Pictures are good.**
- 9. There is no tables with results in separate.**
- 10. Summary parts must be included.**
- 11. Flow charts of significant points can be given.**
- 12. References should be in alphabetical order.**
- 13. After minor corrections can be published in your journal.**
